Our Values

Grassroots Democracy ·
Nonviolence · Social Justice ·
Ecological Wisdom

What Makes the Green Party Different?

Besides working to elect responsible progressive candidates to public office, we also strive to make our community a better place through grassroots activism. GNO Greens have been instrumental in improving local transit systems, organizing for fair trade, opposing the war on Iraq, and creating effective coalitions with other community groups. We're working together to make New Orleans a better place for everyone to live!

We are a dues-supported and membership-controlled organization. We receive no funding from Big Corporations or special interest groups. We are affiliated with the **Green Party of Louisiana** and the **Green Party of the United States**.
